Please see attached PDF File. Per the governing documents, the meeting scheduled tomorrow with GAD attorneys appears to be a violation of the governing documents if a quorum will be present.

Cathy,

Effective immediately I am informing you that I have blocked all future emails from you.

Your constant defamation of the character of Pam Decraene, Lucia Stiles and myself is inappropriate, unprofessional and based on misinformation.

No doubt this action will only fuel your e mail campaign to show that you are the self-proclaimed Van Loon whistle blower.

However this will not stop the board and management company from acting professionally and serving the Van Loon Community.

This board has made great strides in resolving the water meter issues created by our old management company and utility billing company. We have spent countless hours donating our time to serve Van Loon as elected officials.

You will be given the 48 hour notice of any board meetings as required and copied on board matters.

I can assure you the day you arrive to attend a board meeting you will be met in a professional manner.

As stated in previous communications you can call me @ [239] 549-2427 to discuss any constructive input you may have.
